OF THE

COMMITTEE OF VISITORS

OF THE

COUNTY AND CITY OF WORCESTER LUNATIC ASYLUM,

Presented to the County Council of the County of Worcester and to the Town Council of the City of Worcester, pursuant to the 190th Section of the Lunacy Act, 1890.

- 1.—We beg to present herewith our Annual Report up to the 31st March, 1911.
- 2.—We regret to record that Major W. C. Hill, an active Member of our Committee for a great many years, died in the year 1910, having a short time before his death retired from the Committee on account of continued ill-health.
- 3.—The management of the Asylum is still in the hands of Dr. Braine-Hartnell, whose services as Medical Superintendent we much appreciate. Dr. Ruttledge, 3rd Assistant Medical Officer, resigned his post in the month of March, 1911, and we have appointed Dr. Robinson in his place.
- 4.—We append copies of the Reports of the Rev. T. J. L. Davies and the Rev. Father Weld-Blundell, who still continue to act as Chaplains to the Asylum.

5.—The following is a table of attendances of the several Members of the Committee at the Meetings held from the 1st April, 1910, to the 31st March, 1911, of which there were 12 Monthly, 2 Special, and 6 House Committee Meetings:—

C. J. Whitehead, Esq.	• • •	• • •	• • •		• • •	

The Engineering and Agricultural Sub-Committees have also met from time to time.

- 6.—During the year we have received 13 further Patients from Hereford Asylum under their existing Contract with us. We have just completed a Contract with the County of Montgomery to board not exceeding 100 of their Patients (50 males and 50 females) at Powick at a cost of 13/5 per head per week. 33 Males and 41 Females have been received.
- 7.—Deputations from Boards of Guardians have visited the Asylum and have expressed themselves satisfied with the management and care of their Patients.

- 8.—We fixed the rate of maintenance for all City and County Patients, as from the 1st July, 1910, until further notice, at 9/4 per head per week.
- 9.—In consequence of the Local Government Auditor surcharging the Members of our Committee the sum of £1,038 which we had paid over to Barnsley Hall Asylum it became necessary to obtain a refund of such amount and this was done. In order to meet the difficulty we paid over to the City and County Authorities the sum of £1,800, being an estimated profit on Maintenance Account, in the respective proportions to which they were entitled, viz., one-ninth and eight-ninths.
- 10.—We have had the Ball Room re-floored and redecorated, thus adding to the appearance of the room and the enjoyment of the Patients.
- 11.—Two Commissioners in Lunacy visited the Asylum on the 16th July, 1910. We append a copy of their Report.
- 12.—The following Table shows the number of Patients in the Asylum at the last Meeting of the House Committee in each of the following years:—

Year		Male.		Female	Total.
1906		540		675	 1216
1907		465	• • • • •	569	 1034
1908	• • • • • • •	420	• • • • •	537	 957
1909		428		514	 942
1910		437	• • • • •	509	 946
1911		451		552	 1003

The numbers for 1906 do not include 85 Patients boarded out at other Asylums.

The numbers from the year 1907 to 1910 inclusive do not include 200 Patients boarded out at Barnsley Hall.

The numbers for 1909 and 1910 include 10 and 23 Patients respectively received from Hereford County Asylum, and for 1911, 23 Patients from Hereford and 74 from Montgomery County Council.

13.—We append the following:—

- I. Chaplain's Report.
- II. Roman Catholic Chaplain's Report.
- III. Report of Commissioners in Lunacy.
- IV. Report of Local Government Auditor.
- V. Table shewing state of Mortgage Debt.

JOHN BRINTON,

CHAIRMAN.

May, 1911.

[Schedule I.].

CHAPLAIN'S REPORT.

Worcester County and City Asylum, Powick.

March 31st, 1911.

The Committee of Visitors.

Mr. CHAIRMAN AND GENTLEMEN,

I have pleasure in submitting to you my Eighth Annual Report.

As there are comparatively few statistics for me to keep account of, and considering the general uniformity of my duties, you will scarcely expect my Report to greatly differ from former years.

Our religious Services have been regularly held on Sundays and on Wednesdays in the Chapel, and on other days in the Recreation Room. Of the 720 seats, about 600 are generally occupied at the Sunday services.

The Choir of 33 voices continue to do good work, and I am thankful to the Conductor and the others for their unstinted devotion.

At the beginning of Lent, Canon Greig held a "Mission" in the Parish, and at our request very kindly held two special Services in our Chapel. Of course, in such an institution as this, where there are so many difficulties and so many rules, and when due regard has to be paid to the mental condition of the Patients, few opportunities offer themselves of stirring up spiritual fervour, such as may advantageously be done in a parochial cure. However, the two Services held were well attended and proved very helpful. At the close of the "Mission," 12 members of our staff, having been duly prepared, were confirmed at the parish Church by the Bishop of the Diocese.

The Harvest Festival was held on October 23rd, when our old friend, the Rural Dean of East Worcester, the Rev. G. F. Williams, was the special preacher. The Chapel, as usual, was most beautifully decorated for the occasion.

I attend daily to visit my people, and am much encouraged and gratified by the kind reception they generally give me.

The several replies I have received to my 52 letters, commending our discharged Patients to the care of Church Ministers, assure me that they continue to extend a helping hand to our discharged Patients just at a particular crisis, when they need a friend. Monetary aid alone is often of little use to such persons, and sometimes even leads to trouble. Hence charitable funds need to be supplemented by personal sympathy, guidance, and aid.

80 Patients have died during the last 15 months, 38 of whom were buried in our Cemetery. The rest were removed by their friends for burial elsewhere. In some of these removals by friends, I regret to say the coffins are not always sufficiently and carefully covered, and are carried in a dog cart, out of which they project from one to two feet in length. I hope your Committee will be willing and able to find a way of checking what appears to me an indecency.

As Librarian, I have isued 1,002 books. This number is less than last year. The recent addition, however, of 130 books has for the present at least revived a greater interest in the Library.

Cricket.—14 matches have been played during the season. Our cricketers much appreciate the gift of a bat to the Attendant who obtained the highest batting average. The winner had an average of 21 runs.

I wish to record my thanks to the Superintendent and the rest of the Staff for their cheerful help and interest.

I am,

Your obedient Servant,

T. J. L. DAVIES,

CHAPLAIN.

[Schedule II.].

ROMAN CATHOLIC CHAPLAIN'S REPORT.

To the Chairman and Visiting Committee of the Powick Asylum.

Mr. CHAIRMAN AND GENTLEMEN,

I have the honour of again submitting to you my Report for the past year.

A Service has been held on all the Sundays of the year, usually at 11.45, but once a month Mass has been celebrated at 8 o'clock. The attendance of the Patients has been as good as could reasonably be expected, and their behaviour during the Services has been satisfactory.

Three or four times a year, about the time of the principal Festivals of the Church, I have administered the Sacraments to the Patients and admitted to Holy Communion as many as I judged capable of receiving it.

Besides the Sundays, I have visited the Asylum once in the week, and have done what I could to help the Catholic Patients according to their capacity and needs. When summoned, or rather informed of their sickness, I have attended to them, prepared them for death, and administered to them the last rites of the Church.

In conclusion, I desire to thank the Superintendent, the Medical Staff, and all the other officials of the Asylum, for their courtesy and kindly help in the discharge of my duties.

I have the honour to be, Gentlemen,

Your obedient Servant,

B. WELD-BLUNDELL,

ROMAN CATHOLIC CHAPLAIN.

[Schedule III.].

REPORT OF COMMISSIONERS IN LUNACY.

Worcester County and City Asylum,
Powick,

Јигу 16тн, 1910

We were very well satisfied and pleased with our visit to this Asylum to-day. The place was in very good order, the Patients, all of whom we saw and to numbers of whom we spoke, appeared to be very comfortable and to be well contented with the treatment they were receiving, as well as with their general surroundings and diet. There were as is usual many requests for discharge, but with this exception, we received no complaints of any kind, and the behaviour of the inmates was throughout the establishment quiet and free from The wards and dormitories presented an orderly excitement. well-kept appearance, being supplied with a sufficient quantity of papers, books, and periodicals, and for the few imbecile children were toys for their amusement. The Patients were properly dressed and the beds and bedding were in all instances clean and well made. The flooring in Female Ward 4 has lately been relaid, a contract has been placed for the redecoration of the Hall, and tenders for its re-flooring are now being considered. Suggestions which have been made by the Factory Inspector have either been actually carried out or are in process of being done. Toilet requisites are now supplied in all the W.C.'s, but we noticed some handles in these quarters which might well be removed from the doors, and the paths in some of the airing courts seemed to be in need of re-ashphalting. We saw a dinner of good thick pea soup with meat and bread served in some of the wards, and for many of the workers there was a substantial dinner of meat and vegetables and bread. From our enquiries, we gathered from the Patients that the meal was ample and satisfactory. The maintenance charge per head per week is for home Patients 9/11, for out

County Patients 15/-, and for Private Patients, of whom there are 25, 15/-. Since April 19th of last year, when this Asylum was last visited by Members of our Board, there have been 185 admissions, 71 Patients have been discharged or removed, of whom 58 had recovered, and 72 have died. There are to-day on the Statutory books the names of 441 Males and 517 Females, a total of 958, inclusive of 23 out County Patients who are chargeable to Hereford Asylum. There has been no mechanical restraint, but 21 Patients have been secluded on 33 occasions for a total duration of $51\frac{3}{4}$ hours. According to the returns which have been furnished to us there are now vacancies for 90 men and 112 women. The Sunday morning and afternoon Church of England services in the Chapel are usually attended by 53 per cent of the Patients. No special services are provided for the Nonconformists, but for those of the Roman Catholic faith, of whom there are 52, there is a service every Sunday. Mass is said once a month, and a Priest visits the Wards at least once a week. At the weekly entertainments 49 per cent. of the Patients are usually present, and as many as 48 per cent. walk out weekly beyond the estate, and 67 per cent. are on an average daily employed throughout the year.

The staff of Attendants and Nurses is adequate, there being one to every 9.8 of the Patients for day, and 7 of the former and 9 of the latter for night duty. The very good proportion of 71 per cent. of the Attendants and 33 per cent. of the Nurses can show over 5 years service, whilst only 14 per cent. of the former and 15 per cent. of the latter have under a year's service. A junior Attendant has been dismissed by the Committee for roughly using a patient.

At the present time the general health is good. There were 24 Patients in bed to-day, and many of these were simply suffering from senile debility. Of the total in residence 17·2 per cent. are epileptics and 1·9 per cent. are regarded as actively suicidal. The deaths have all been due to natural causes, including one case in which an inquest was held. Amongst these causes were Senile Decay 18 per cent., Phthisis 11·1 per cent., General Paralysis 9·7 per cent., and Cancer 7 per cent. In no case was a bedsore present. Post mortem

examinations were made in 87 per cent. of the deaths. regards zymotic disease, it is noticeable that during the 15 months there have been only 4 cases of dysentery, only one of which was in a Male Patient, who had had previous attacks. This record compares very favourably with that of former years. There was a severe outbreak of Influenza in the months of January and February, in which several members of the staff, as well as Patients of both sexes, were attacked. There have also been two cases of Erysipelas on the Female side, and one of Typhoid and of Scarlet Fever respectively on the Male side. The serious injuries received by Patients comprise the following: -A male Patient was wounded on the head and cheek by being attacked with a polisher by another Patient and a Female Patient in attempting to jump from a window sustained severe cuts on the arms. There were 7 cases of fractures of bones, 5 due to accidental falls, 1 (fracture of nasal bone) to a blow by a fellow Patient, whilst one man who was pushed down by a fellow Patient fractured both bones of the leg.

The case books and records are well kept

S. J. FRASER MACLEOD COMMISSIONERS SIDNEY COUPLAND,

[Schedule IV.].

LOCAL GOVERNMENT AUDITOR'S REPORT.

THE MIDLAND COUNTIES AUDIT DISTRICT.
58, CALTHORPE ROAD,

Edgbaston,

BIRMINGHAM.

30тн Јигу, 1910.

My Lords and Gentlemen,

I have to report that I concluded my Audit of the Accounts for the year ended 31st March last, of the Worcester County and City Lunatic Asylum on the 26th instant.

The total amount received on the Maintenance Account was £28,284 7s. 4d., which included £921 10s. 0d. from Contributory Authorities under Section 269 (9) of the Lunacy Act, 1890, and £1,004 15s. 1d. on account of Private Patients.

The expenditure on the Maintenance Account was £28,094 11s. 10d., including £3,701 0s. 0d. paid to other Asylums for Patients under contract, and £359 16s. 0d., the excess of weekly charge on Out-County, Private, and Criminal Patients.

The balance in your Treasurer's hands at the end of the Financial Year amounted to £3,507 7s. 9d., and there was also a balance in the hands of the Clerk of the Asylum of £101 8s. 6d.

The rate charged to the Unions for the maintenance of Pauper Patients was 9/11 per head per week, as compared with 8/2 during the Financial Year ending March, 1909.

Building and Repairs Account.

The receipts on this Account, including £359 16s. 0d. transferred from Maintenance Account, amounted to £1,894 11s. 4d., and the expenditure £3,773 9s. 3d., leaving a balance in favour of the Treasurer of £2,410 1s. 4d., and of the Clerk of £56 12s. 5d

The value of the Farm Stock on the 31st March last was certified at £4,433 7s. 10d.

A sum of £1,038 0s. 0d. paid to the Visiting Committee of the Barnsley Hall Asylum was disallowed and surcharged, and the reasons for such disallowance and surcharge were duly entered in your Ledger

During the course of the Audit, application was made to the Local Government Board under the Local Authorities (Expenses) Act, 1887, for their sanction to a payment of £10 10s. 0d. to the Farm Bailiff as an honorarium. I must call your attention to the Board's letter of the 25th instant, in which they intimate that the payment is sanctioned on this occasion as the same was made before a similar payment was sanctioned last year.

A payment of £89 5s. 0d. was made to a Mr. E. L. Adlington, Gas Engineer, Worcester, for reporting on the gas supply and superintending the fixing of a new gas holder. £5 5s. 0d. of the amount was for the report and the balance was a charge of 5 per cent. on the contract price of the new gas holder and fixing.

There was no Resolution on the Minutes in reference to Mr. Adlington's remuneration, and as, on enquiring into the matter, some doubt seemed to exist whether the 5 per cent. on the amount of the contract was to cover the remuneration for the whole of his services, I think it would be advisable to further consider this payment, and in so doing I would refer you to a letter dated 23rd July, 1910, from Mr. Adlington to the Medical Superintendent.

It is highly desirable that all verbal arrangements of this nature should be reported to the Committee and recorded on the Minutes.

I am, my Lords and Gentlemen,

Your obedient Servant,

W. F. M. PROVIS,

Assistant District Auditor.

To the Chairman and Members of the Visiting Committee of the Worcester County and City Lunatic Asylum, Powick.

JOHN BRINTON,
CHAIRMAN.

THE FIFTY-EIGHTH ANNUAL REPORT

OF THE

Medical Officer & Superintendent.

To the Committee of the Worcester County and City
Asylum at Powick.

Mr. CHAIRMAN AND GENTLEMEN,

I have the honour to present the Report for the fifteen months ending March 31st, 1911. This is in consequence of your Committee having decided that the Medical Report is in future to cover the same period as the Financial Year. The Statistical Tables for the year ending December 31st, 1910, are appended. The Financial Statement is also attached. The changes that occurred among the Patients were as follows:

					Males.	Females.	Total.
Number of	Patie	nts in	Asylur	n on			
Januar	y 1st,	1910			425	508	933
Admitted	• • •	• • •			80	109	189
Discharged		• • •	• • •	• • •	25	42	67
Died	• • •	• • •		• • •	34	29	63
Remaining	in Asy	dum o	n Decer	nber			
31st, 19	910	• • •	• • •	• • •	446	546	992

These figures show an increase of 21 males and 38 females, total 59.

In February, 1910, a further 13 male Patients were received under contract from the Hereford County and City Asylum, making a total of 23 male Patients from that Asylum.

The average number resident was 438 males, 519 females, total 957.

The total number under treatment was 505 males, 617 females, total 1,122.

Admissions.—Eighty males and 109 females, total 189, were admitted during the year.

Of these admissions, 59 males, 92 females, total 151, were direct admissions.

Twenty-one males and 17 females, total 38, were transferred from other Asylums.

A percentage of 13.2 of the direct admissions had had a previous attack.

The chief causes assigned were as follows:—

Epilepsy		• • •	• • •	• • •	10.6 pc	er cent.
Alcohol		• • •	• • •	• • •	10.6	22
Stress	• • •	• • •	• • •	• • •	9.3	,,
Senility			• • •		8.0	,,

The history of Insane Heredity was extremely small and probably false, viz., 3.7 per cent.

Of the 189 admissions, 32 were 60 years of age and upwards; the oldest was a man of over 90 years of age.

A male Patient was admitted with a fractured rib.

Of those admitted during the year, 11 have been discharged "Recovered." Twelve have died.

Your Committee entered into a contract with the Montgomery County Council to receive not more than 50 male and 50 female patients, at 13s. 5d. per head per week.

In March last 33 male and 41 female Patients were received.

DISCHARGES.—Sixty-seven persons, 25 males and 42 females, were discharged during the year. Of this number 15 males and 24 females were discharged "Recovered," being at the rate of 25.4 per cent. males and 26.1 per cent. females, total 25.8 on direct admissions.

DEATHS.—Thirty-four males and 29 females, total 63, have died during the year. The chief causes were as follows:—Phthisis 20.6 per cent., Heart Disease 12.7 per cent., Bright's Disease 11.1 per cent., Old Age 24 per cent. Full details will be found in Table D2.

The death-rate from Phthisis since 1905 has been as follows:—1905, 17·3 per cent.; 1906, 29·9 per cent.; 1907, 15·2 per cent.; 1908, 18·8 per cent.; 1909, 13 per cent.; 1910, 20·6 per cent. On comparing these figures with those published in the last blue book of the Commissioners in Lunacy, we can console ourselves with the knowledge that we are more than half way down in the list of the 43 Asylums with which we are grouped. This, however, should not blind our eyes to the fact that the Phthisical death-rate is higher than it should be. This matter is receiving the serious attention of your Committee.

Post-mortem examinations were made in 52 cases out of 63 deaths, a percentage of 82.5.

PRIVATE PATIENTS.—These have decreased by three. The movements in the numbers have been as under:—

	Males.	Females.	Total.
In Asylum on January 1st, 1910	11	15	26
Admitted	•••	= 2	2
Transferred from Pauper class		1	1
Discharged		5	5
Died		1	1
Remaining in Asylum on December			
31st, 1910	11	12	23

One male criminal was admitted, leaving 2 males at the end of the year.

Accidents.—Six serious accidents, all non-fatal, occurred during the year. They were as follows:—One fracture of the wrist, one of the leg, one of a finger, one of the nose, one dislocated shoulder, and one dislocated elbow. All were accidentally caused or from blows from fellow Patients.

Accidents to Patients are prominently brought forward, and those to the Nursing Staff kept in the back ground. Thus an impression may be created that attendants are never injured during the course of their duty; this is far from being the case. Black eyes are numerous, and the kicks and blows sustained by the Staff are of frequent occurrence. One Nurse was struck in the face, by a Patient, with a fork, which fortunately just missed her eye.

Escapes.—One woman escaped, but she was recaptured in 20 minutes.

HEALTH.—The health of the Patients has been good. There have been 2 cases of Colitis during the year. We have had an outbreak of Influenza during the winter, in the course of which a good many of the Staff were attacked.

STAFF.—Mr. Ruttledge, the 3rd Assistant Medical Officer, resigned in March last, and Mr. J. H. Robinson has been appointed in his place.

In September last, the Rev. A. Bond, late Chaplain, and in March, 1911, Miss Churchman, late Charge Nurse, died. They were both in receipt of pensions from your Committee. The changes among the junior members of the staff have been less numerous. One Charge Nurse left through ill health, and, I regret to say, died in a very short time. Another Charge Nurse resigned owing to her health. The Police service seems to have an attraction for the junior male Attendants. The general conduct of the Nurses and Attendants has been very good.

To my Medical colleagues I am indebted for their ever ready help. I am specially grateful to Dr. Fenton, the Deputy Medical Superintendent, for the way in which he carried out my duties while I was away on sick leave. His management of the Asylum earned your thanks, as set forth in the Minutes of your Committee.

The welfare and smooth working of an Asylum depends to a large extent on the interest in, and devotion to duty displayed by the heads of the different departments. Your Committee are fortunate in possessing those who exhibit these characteristics in a marked degree.

The following is a numerical statement of the staff:—

	Males.	Females.	Total.
Medical Officer and Superintendent	1	• • •	1
Assistant Medical Officers	3	• • •	3
Other Officers	9	4	13
Ward Attendants (including 5

Commissioners in Lunacy.—Dr. Sidney Coupland and S. Fraser Macleod, Esq., K.C., two of the Commissioners in Lunacy, visited the Asylum on July 16th, 1910. Their Report will be found in Schedule III.

General Matters.—The charge per Patient per week from July 1st has been 9s. 4d. In the first quarter it was 9s. 11d.

The average cost per Patient per week for the year ending March 31st, 1911, was 9s. $2\frac{1}{2}$ d.

The average cost per Patient per week, including interest on loans, repayment of capital, and sums granted for general repairs by the County and City Councils, was 11s. 4d.

The Factory Inspector visited the Asylum on November 11th, 1910.

The following Boards of Guardians have visited the Asylum:—Bromsgrove, Cleobury Mortimer, Droitwich, Dudley, Kidderminster, King's Norton, Solihull, Stourbridge, Upton-on-Severn, West Bromwich, Worcester.

There was a serious leakage in the Reservoir. Messrs. Vale & Sons have carried out extensive puddling operations, under the direction of Messrs. Willcox & Raikes, with good results.

The Farm shows a profit of £622 19s. 5d. on the year's working.

I cannot conclude without thanking most sincerely your Committee for their appreciation of my services, and also for their great kindness and sympathy shewn to me during my ill health. The extended leave has been of much benefit, and I trust with restored health I may be better able to carry on my duties to your entire satisfaction.

I am, Mr. Chairman and Gentlemen,

Your obedient Servant,

GEO. M. P. BRAINE-HARTNELL.

28th April, 1911

Conditions under which Private Patients are admitted into the Asylum.

- I. The charge for Patients coming from, or having a settlement in some Union in the County or City of Worcester, is 15s. a week, payable quarterly in advance.
- II. The charge for maintenance covers all ordinary expenses, but in cases of prolonged bodily disease an additional weekly charge may be made to cover the cost of special medicines and stimulants.
- III. In the event of the death or discharge of any Private Patient before the maintenance moneys, paid in advance, have been exhausted by effluxion of time, the balance will be refunded to the person who made the last payment in respect of such Patient.
- IV. The Patients may wear their own clothes, but will have the same accommodation in all respects as the other Patients.
- V. Application for the admission of a Patient on the private class must be made in the first instance to the Medical Officer at the Asylum, who will supply all the various blank forms for the order and medical certificates.
- VI. The excess charge made for Private Patients beyond the ordinary pauper weekly rate of maintenance is carried to the credit of the Repairs Account.
